

Builders Tee Club

Established - 1927

Fellow Members,

Here was the article that Andy allowed me to write about his time with and before the BTC.

Today's Member Story involves someone who has been totally involved in bringing our Club into the 21st Century when it comes to how we operate as a Club.

When **Andy Zilis** joined the BTC in 2002 the Club was in the early stages of changing over from mailing out 275 newsletters to our then membership via Office Assistants and through USPS. The cost of that service to our

Club was upward of \$17,000 per year. By 2009, the year that Andy was President of the BTC, Andy was able to change over our system to 100% online email of our newsletter within the next few years. He would take all the information that was sent to him and formalize it into an email that was sent to every Member. Rich Schroeder would then take that email and put it on the web for posterity so watch what you say. But before Andy was with the club let us go back to the beginnings.

Andy grew up in the Mount Greenwood area. He attended IIT on a baseball scholarship. While playing baseball in College he still laughs about the fact that he gave up back to back homers to two future major leaguers in Joe

Girardi and Reggie Hammonds in 1983. Andy graduated in 1984 and received a

BBA in Accounting. Andy worked at the Options Exchange for one year and then

for 8 years he worked at a CPA Firm. While there he passed the CPA exam and started his own business, Zilis Accounting & Tax Services, which is still operating today. Like I mentioned earlier Andy joined the BTC in 2002. His Sponsors were

Longtime Members, **Ed Tadevich and Frank Falbo**. They brought Andy in for his

bowling abilities and rightfully so since Andy managed to lead the BTC in high

average three years. His Teams managed to win a few titles and during his

bowling career Andy has 2 sanctioned 300 games and even harder to do

one 800 series. He also has done well in golf winning some Divisions in the

Presidents Cup and Club Championship and even more so in the Two-Man Event

where three times he won with three different partners. Once with our Current

Secretary, **Dave Jenner**, Former Member **Justin Kamper** and Current

Parliamentarian Jim Van Eck. In 2006, the year that I was President,

Andy came on to be an Officer and over the last 19 years has done much to “Make our Club Great Again”(Not that it always wasn’t). When Chuck Martino passed Andy took on running the Kids Christmas Party which always put a big smile on our Children’s and Grandchildren’s faces. Between Andy, his fellow Chairman, Dan Roberts, our every year Santa, Jim Fowler and man more contributors this party continued to run until Covid. Andy told me that it was alright to bring up his current health problems. He doesn’t really want this honor but, with a 100% success rate at Christ Hospital in 2024, he is hoping to become ourfirst member with a heart transplant. He will be going into the hospital sometime in August and is planning on coming out, and after a long recovery, coming back to golf and maybe even bowling. I am sure that we all will be praying for Andy to be the first. Andy has lived in the Oak Forest area for 30 plus years. He and his wife, Kara, have been married for 40 years in November and have two Children and 5 Grandchildren. So let’s keep Andy in our prayers so he can come back and continue to enjoy time beating up on us on the links and on the lanes.

Thanks for listening,

Your Historian,
Bob Vizdal
